CHAPTER _____

An act to amend Sections 2531, 2534.2, 2570.5, 2570.16, 2570.20, 2770.11, 3330, and 3456 of, and to add Section 2751 to, the Business and Professions Code, and to amend Section 3 of Chapter 859 of the Statutes of 2001, relating to business and professions, and making an appropriation therefor.

LEGISLATIVE COUNSEL'S DIGEST

SB 2021, Committee on Business and Professions. Business and Professions.

(1) Existing law, the Speech-Language Pathologists and Audiologists Licensure Act, provides that, until July 1, 2004, the Speech-Language Pathology and Audiology Board is under the jurisdiction of the Medical Board of California. Existing law authorizes the board to impose fees for specified services that are deposited into the Speech-Language Pathology and Audiology Board Fund, a continuously appropriated fund.

This bill would remove the board from the auspices of the Medical Board of California and would place the board within the Department of Consumer Affairs. The bill would extend this board to July 1, 2005. The bill would require the department to enforce and administer the board functions. The bill would additionally authorize the board to impose a fee for issuing a license status and history certification letter. Because the bill would lead to an increase of fees that would be deposited into the continuously appropriated Speech-Language Pathology and Audiology Board Fund, the bill would make an appropriation.

(2) Existing law, the Occupational Therapy Practice Act, authorizes the licensing and regulation of occupational therapists by the California Board of Occupational Therapy. Existing law provides that a person who meets the qualifications to be admitted to the examination for licensure or certification and is waiting for the announcement of the results of the next examination may practice under the direct supervision of a licensee. Existing law additionally authorizes the board to impose fees for specified services, which are deposited into the Occupational Therapy Fund. Existing law authorizes the board to take disciplinary action against a licensee.

This bill would additionally authorize a person to practice under the direct supervision of a licensee if the individual was waiting to take the first available examination or had just taken the examination and was waiting for its results. The bill would authorize the board to charge an application fee of up to \$50, which would be deposited into the Occupational Therapy Fund. The bill would make other conforming changes.

(3) Existing law, the Nursing Practice Act, provides for the licensing and regulation of registered nurses by the Board of Registered Nursing. Existing law also authorizes the board to take disciplinary action against a licensee. Existing law provides that a licensee may participate in an alcohol or drug diversion program, provided the licensee complies with certain conditions.

This bill would authorize the board to accept the surrender of a license through a settlement agreement in lieu of a formal pleading when the surrender is based upon a mental or physical illness of a licensee that is affecting his or her ability to safely practice nursing. The bill would additionally provide that the stipulated agreement be a form of discipline, and would allow the licensee to petition the board for license reinstatement after one year from the effective date of the board's decision to accept the stipulated agreement. The bill would require the board, under certain circumstances, to report the name and license number of a licensee who is denied admission to the drug or alcohol diversion program to the board's enforcement program.

(4) Existing law provides for the licensing and regulation of hearing aid dispensers by the Hearing Aid Dispensers Bureau. Existing law authorizes the bureau to employ personnel necessary to carry out bureau functions except for inspections or investigations which are required to be made by personnel from the department's Division of Investigations. Existing law allows the bureau to impose fees for the issuance of a replacement license when the original license is lost or when the licensee changes his or her name. These fees are deposited into the continuously appropriated Hearing Aid Dispensers Fund.

This bill would authorize the bureau to employ personnel to conduct inspections and investigations. The bill would additionally authorize the bureau to impose fees for issuing a replacement license. Because this would lead to additional fees

being deposited into the continuously appropriated Hearing Aid Dispensers Fund, the bill would make an appropriation.

(5) Existing law requires the Dental Board of California, by August 1, 2002, to contract and submit a completed followup study to the Legislature regarding, among other things, staffing requirements for the board's enforcement program, the use of peace officers, trends in board reported dental-related crimes, and recommendations for improving the board's enforcement program.

This bill would extend the submission date for this study to December 31, 2003.

Appropriation: yes.
